

## Square knot Assembly Instructions

It's official, you've selected a unique wedding invitation with a beautiful ribbon accent. Simply follow the steps below to tie the perfect square knot and start impressing your guests!

- 1 Place the ribbon behind the invitation leaving the right side of the ribbon slightly longer than the left. Overlap the right side over the top of the left.

- 2 Tie a common knot by looping the right side under the left.

- 3 Pull ends tight vertically to create a "t".

- 4 Holding the center knot in place with your left pointer finger, adjust the bottom ribbon to hold loosely in your left hand as shown.

- 5 Bring the top ribbon over the ribbon in your left hand and loop it through the hole.

- 6 Pull both ends horizontally to tighten and adjust knot as needed. (Tip: Don't pull too tightly or the beauty of the center loop will be lost.)

You're done!

Guests will be so impressed with your beautiful wedding invitations.
